Item	Model number	H304LED-1
	Description	High-brightness LEDs work in both normal and emergency situations
Input	Voltage	AC 220V
	Frequency	60Hz
Output	Light Source	High efficacy SMD LED x 35
	Power Consumption	84 Lm / W
	Battery	NI-CD 3.6V 800mAh
	Emergency Duration	Over 3 hours
Physical	Enclosure	The body is made of ABS, outer cover is made of PC, both fireproof materials
	Mounting	Wall or Portable
	LxWxH	72 x 50 x 170 mm
	Weight	0.25 Kg
	IP rating	IP 20
Control	Charger	trickling charge
	Protection	De-energized
	Test	Manual test button
	Indicator	When the AC power supply is connected, the red LED turns on
Environment	Operating Temperature	5°C to 45°C
	Relative Humidity	0 to 95%
Features	<ol style="list-style-type: none"> 1. Compliance with fire safety standards 2. Widely used in various places such as office buildings, warehouses and factories, shopping malls, apartments, hospitals, nursing homes etc 3. The portable function is flexible and convenient, and can be used for camping and outdoor sports. 4. High brightness, low light decay 5. Easy install 6. Made in Taiwan 7. 2 years warranty, 1 year battery warranty
